EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Harris Pitlick on January 5, 2005.

The application has been amended as follows:

Cancel claims 1-5, 7, 11-14, 16, 21-23, 25, 26, 28, 29, 31-33, 35, 36, 38-42, and 44-46.

2. The following is an examiner's statement of reasons for allowance:

The instant amended claims 6, 8 and 15 are directed a branched olefin polymer prepared by copolymerizing an olefin polymer and an atactic branched propylene macromonomer with specified properties. Prior art such as Tatsumi et al. (WO 98/55520) and Weng et al. (US 6,184,327) teaches a branched olefin polymer prepared by copolymerizing an olefin polymer and an branched crystalline propylene macromonomer. The cited prior art does not teach or reasonably suggest the propylene macromonomer to be atactic or amorphous. Therefore, the instant claims are deemed to be novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
